Organizing Committee

Honorary Chairman

Yih-Hsing Pao
National Taiwan University, Taipei, and
Zhejiang University, Hangzhou

Chairman

Y. B. Yang
National Taiwan University, Taipei

Co-chairmen

Hirokazu Takemiya
Okayama University, Japan
Yunmin Chen
Zhejiang University, Hangzhou

Members

F. T. K. Au
University of Hong Kong, Hong Kong
Cheng-Hsin Chen
National Taiwan University, Taipei
Yung-Hsiang Chen
National Taiwan University, Taipei
Chan-Shin Chou
National Taiwan University, Taipei
Guangyun Gao
Tongji University, Shanghai
Takeshi Goto
Hosei University, Japan
Kiyoshi Hayakawa

ISEV2007

3rd International Symposium on Environmental Vibrations:

Prediction, Monitoring, Mitigating, and Evaluation

TAIPEI, November 28-30, 2007
Howard International House Taipei

Obtained from: http://www.thsrc.com.tw/images/gallery/photo/thsrc_g06_57.jpg

Organized by

National Taiwan University
Chinese Institute of Civil and Hydraulic Engineering
NTU Civil Engineering Culture and Education Foundation
Tamkang University

Supported by

Architectural Institute of Japan
Institute of Noise Control Engineering of Japan
Japan Society of Civil Engineers
Japanese Geotechnical Society
Okayama University
Zhejiang University

Aims & Scope

The 3rd ISEV will be held by the National Taiwan University on November 28-30, 2007 in Taipei, as a sequel to the 1st ISEV held by Zhejiang University in 2003 in China and the 2nd ISEV by Okayama University in 2005 in Japan. The ISEV2007 Symposium is aimed at bringing together specialists, researchers and practitioners in environment vibrations, to review recent achievements in the advancement of knowledge and understanding in these areas, to share the latest developments, and to address the challenges faced by the related engineering works. Similar to the previous symposia, topics covered will include *the predictions, mitigation, and monitoring of ground and structural vibrations caused by train/road traffic, construction activities, and factory operations*. The ISEV2007 to be held in Taipei will provide a forum for the interchange of experience and research results concerning the latest development on the prediction, mitigation, monitoring of environment vibrations. The language of this symposium is English.

One reason for holding this conference at this moment in Taiwan is the commercial operation of the High Speed Railways there. These newly built transportation system is located along the western corridor of the island, having a total length of 345 km, which allows the trains to move at a normal speed of 300 km/km and a maximum speed of 350 km/hr. It is featured by the fact that 73 percent of the tracks are carried by elevated bridges, and 18 percent by tunnels.

Important Dates & Registration

Submission of Papers:

Receipt of Abstracts.....March 31, 2007
 Notification of Acceptance of Abstracts...May 31, 2007
 Receipt of Full Papers.....June 30, 2007
 Notification of Acceptance of Papers.....July 31, 2007

Registration:

Early Registration (before 31 July 2007).....US\$ 400
 Regular Registration (after 31 July 2007).....US\$ 500

Venue

The ISEV2007 will be held at the Howard International House Taipei (the web-site is <http://intl-house.howard-hotels.com>), which is located near the Taiwan National University. The hotel provides convenient access to the city's transportation network and comfortable accommodation.

Reach the Venue from the CKS Airport

Method 1 (one step)

Take a taxi (yellow cab) from the international airport to the Howard International House Taipei directly (cost: around NT\$ 1,200/car or roughly US\$ 38/car).

Method 2 (two steps)

Step 1: Take a bus from the international airport to the Howard Plaza Hotel (cost about NT\$135 or roughly US\$ 4.5)

Step 2: Take a taxi from the Howard Plaza Hotel to Howard International House (cost about NT\$120 or roughly US\$ 4).

Participants' Information

Given Name: _____

Family Name: _____

Affiliation: _____

Mailing Address: _____

E-Mail: _____

Fax Number:(____)_____

Will attend the Symposium: YES NO

Number of accompanying persons: []

Need hotel reservation: YES NO
